

COMPASS DIAL RELAY

3-10-88

Equipment: (to be furnished by conference)

One four foot diameter simulated compass face
(The compass will have sixteen points equally spaced around the outer edge, only **North** will be labeled.)

Team: Minimum of 2 - maximum 15

Procedure: Team will line up in relay formation 50 feet from the compass face. At starting signal, team member number one runs to compass, receives a card from the Judge with a compass direction written on it, rotates compass pointer to correct mark and runs back to tag team member number two, who repeats action and tags team member number three. Action continues until team has gone through all fifteen points.

Scoring: Scoring will be based on total elapsed time plus any penalties for incorrect points.

Note: Compass face will be lying flat on the ground.
Compass points on cards will be in the following form:
North Northeast, Southwest, etc.
